Replication Code

The Exact Wild Bootstrap

by Bruce E. Hansen

The folder contains R code for generating the tables and figures in the manuscript.

No specialized R packages are used. The programs were run in version 2.5.2.

- procs.R
  - contains the source code for the methods
- Table1.R
  - Generates Table 1
- Table2.R
  - Generates Table 2
- Table3.R
  - Generates Table 3
  - Not reported in paper, but discussed in Section 7
- Figure1.R
  - Generates Figures 1 & 2
- Figure3.R
  - Generates Figure 3
- Figure4.R
  - Generates Figure 4
